

About Us

Who We Are

SocketWorks Limited is a limited liability company founded in Nigeria in 2003, with a mission to act as a vehicle for promoting technology as a tool for development in a global society where knowledge is the currency of exchange.

Since our founding five years ago, we have grown into a global organization with operations in Ghana, India, Kenya, Liberia, Sierra Leone, Sri Lanka, Uganda and the United States. We recently created SW Global Limited, our headquarters and parent company, located in Accra, Ghana, in order to manage our unexpectedly rapid growth. We are now expanding into South Africa and boast a worldwide staff of nearly 400.

What We Do

SocketWorks Limited is an Application Service Provider (ASP). We provide IT infrastructure and software solutions to digitally manage the operations of government, healthcare and educational institutions in developing countries. By focusing on these three areas, we believe technology can be used as a transformational tool to improve overall prospects for growth and development.

We operate with an innovative “pay as you go” service model. This means that, unlike the traditional software industry, our clients do not pay any upfront fees for the solutions we provide; rather, the cost of the solution is borne by the users of our clients’ products. Because the recovery cost is spread out over a long period and a large number of users, the fees become minimal. For African countries with limited ICT budgets, this is an innovative and valuable model.

Who We Work With

SocketWorks Limited is currently one of the fastest growing companies in Africa. We serve a variety of impressive clients, including:

- Nigeria Immigration Service
- National Examinations Council (Nigeria)
- National Pension Commission (PenCom) (Nigeria)
- Ministry of Education (all public examination bodies) (Nigeria)
- Over 40 higher education customers including all of Nigeria’s 21 Federal Polytechnics
- University of Liberia
- Makerere University Business School (Uganda)
- Cape Coast University (Ghana)
- Mombasa Polytechnic (Kenya)
- Ghana Postal Service
- Ghana Immigration Service
- Birla Institute of Technology (India)
- Ministry of Foreign Affairs (Liberia)
- Korle Bu Teaching Hospital
- Tertiary Education Commission (Sierra Leone)

SocketWorks Limited already serves over one million students across Africa in the effort to create a thriving digital generation. And in partnering with public sector agencies, SocketWorks Limited hopes to close the digital divide and help leapfrog the governance environment of developing countries to provide superior services to their citizens.
